Our PSIA-certified Ski School offers fun, friendly instruction for all ages (8+) in classic and skate style skiing. Beginners and intermediate skiers alike benefit greatly from one or more lessons - learning or improving their technique and skiing safely. Lessons cover a range of topics to safely navigate varied terrain - falling and getting back up safely, the basics of getting up and down hills, and techniques such as star turns, double poling, diagonal stride and snow plow. Intermediate instruction covers more complex techniques and helpful critique of current skiing habits.

## Group Lessons - Classic
