

~~Least~~ WANTED

Goutweed, Bishop's weed

Aegopodium podagraria

Unwanted for: Aggressively infesting forested & open areas, displacing native plants including tree seedlings

Plant Type: Creeping perennial, leaves solid green or with white edges. Spreads within & from disturbed areas such as roadsides & floodplains. Native to Europe & Asia.

What you can do:

- Dig up plants and remove all roots and runners, dispose of plants properly
- Cover with black plastic to prevent photosynthesis or spray with herbicide
- Prevent spread by not moving infested soil or fill

For more info & control options visit:
Highlandcommunities.org
Or contact: LeastWanted@ttor.org
Apprehend this plant carefully, it may be mistaken for others!
